

SGG DIAMANT[®] MIRROR

Extra clear silvered glass

Description

SGG DIAMANT[®] MIRROR is fabricated by depositing successive coatings of silver and one or more protective coatings on to an Extra clear glass (SGG DIAMANT[®]). Since the base glass is extra clear glass it provides higher reflection and higher clarity. The image seen are better than ever before.

Applications

The SGG DIAMANT[®] MIRROR range is intended for numerous applications in:

- common areas of shared public and private buildings: entrance halls, landings
- homes: kitchen, dining, bathroom, bedroom, living room
- bars, restaurants, hotels, jewelry shops, beauty clinics, nightclubs and theatres.
- sports and leisure centres, swimming pools
- office buildings, shops and department stores

They can be used as framed or unframed mirrors, wall paneling, partitions, cladding for pillars, beams or ceilings, cladding for doors and furniture (tables, cabinets, shelves).

Processing Possibilities

After cutting, SGG DIAMANT[®] MIRROR can be:

- drilled and edge-worked (beveled, arised, etc.)
- sandblasted or engraved (patterns, lettering, logos, etc.)
