Saint-Gobain range of High Quality Insect Screens for Doors and Windows

Standard Fiberglass Screens

– Your choice for a flexible and economical screening solution

A specialized coated fiberglass screen for ultimate and long-lasting protection against all types of insects.

Stiff Insect Screens

– Great for all retractable doors and windows

Stiffer screens with bigger width, provide excellent usability for retractable applications

Clear Advantage Insect Screens

– See the scene... not the screen

Nearly invisible screens that allow more natural light and airflow

Extra Strength Insect Screens

– Screens with ultimate strength & durability

Extra Strength screens come with an additional strength and withstand the damage caused by pets or by children

Sun Guard Insect Screens

– Protect your home from harmful sun damage

Filters up to 75% of the sunrays entering your home, thereby reducing glare and protects curtains, upholstery and carpets from fading

Pet Resistant Insect Screens

– Resists tear and damage caused by pets

Ideal for area where pets or children push against screening, these heavy duty durable screens prevent tear and damage, and still allows for excellent outward visibility and airflow
