Next-Gen windows that make life beautiful

Life is beautiful with Next-Gen Windows.
Discover the perfect blend of sophisticated
design and advanced
engineering - delivering elegant aesthetics with
powerful protection against heat, UV rays,
and sound.

Silence is beautiful

Transform your home into a sanctuary with SoundBan Windows. At the heart is SmartSeal Architecture which absorbs and disperses sound vibrations. It also eliminates air gaps where sound typically leaks in, thereby lowering sound transmission dramatically.

Powered by SmartSeal Architecture

A high-performance system built from: specialized high gauge gapless seals, layered & laminated acoustic-grade glass, & precision-crafted frames that create a superior sound dampening unit.

Engineered peace, because peace is a luxury.
Recommended by SoundBan Experts

SOUNDBAN CORE
WINDOWS

Ideal for mild noise reduction like distant traffic

SOUNDBAN PRO
WINDOWS

Enhanced noise reduction for light traffic, barking dogs

SOUNDBAN Prime
WINDOWS

High-performance soundproofing in heavy traffic areas

SOUNDBAN LUXE
WINDOWS

Ultimate noise reduction for construction zones

Cooling is beautiful

Enjoy advanced heat protection that helps your AC cool your home faster, keep it cool longer while also lowering cooling costs. Block the heat out and lock the cool in with InfraLock System, our precision-engineered weather-tight barrier.

Powered by InfraLock System

A multi-layer defense system that combines the power of solar control glass with special magnetron coating, heat-resistant frames and ultra thick, zip-welded seals.....

Stay cooler. Spend smarter.

HEATBAN CORE
WINDOWS

Reduces 20%* heat

HEATBAN PRO
WINDOWS

Reduces 40%* heat

HEATBAN Prime
WINDOWS

Reduces 55%* heat

HEATBAN LUXE
WINDOWS

Reduces 70%* heat

*% Indicates reduction in heat gain vs. standard windows based on studies done for a representative time period. Performance may vary based on orientation, shading and installation specifics.

Interiors that stay beautiful

Safeguard your home from sun damage and protect your interiors and furnishings from fading, bleaching and deteriorating.

Invite natural light into your home - soft, glare-free, and screen-friendly - so you can enjoy your views while reducing the need for curtains. Leave those curtains open all day long.

Our windows with SunSafe Technology give you complete privacy during the day.

Powered by SunSafe Technology

Specialized multi-layer nanocoating surface treatment delivers broad-spectrum absorption of UV A & B rays while letting in the right amount of natural light.

Sunscreen for your home. Sunglasses for you.

Blocks 50%* UV rays

Blocks 70%* UV rays

Blocks 90%* UV rays

Blocks 99%* UV rays

Did you know?

Ample natural light exposure helps improve sleep quality, enhances energy levels, and supports your immune system!

*% indicates reduction in UV transmission through the window. UV cut values have been estimated using properties and calculation algorithms that comply with European standards EN 410 and EN 673, and international standard ISO9050.

Thoughtful design is beautiful

Seamless zip-welded joints for a smooth corner finish. Frames that stay white forever. A range of wood-coloured shades. All of this backed by centuries of expertise in glass. Our windows don't just do a great job of protecting you from heat and noise, they look great too!

Did you know?

Our white frames are the whitest in India and tested for 10 years against fading/yellowing.

Zip welding

Patented first-ever zip welding technology fuses profiles for a seamless, pristine appearance

White forever

Special uPVC with high UV resistance creates an ultra-white profile that stays white forever.

Long-lasting hardware

Tested under the most stringent conditions for mechanical performance and corrosion resistance

Vibrant shades

A range of wood finishes that give the window a natural look without the maintenance hassle of wood

WINDOWS

COMPLETE WINDOW SOLUTIONS

Saint-Gobain offers world-class uPVC windows, made in India with state-of-the-art European technology that brings together aesthetics, safety and durability.

EUROPE'S BEST WINDOWS. MADE IN INDIA. FOR INDIA.
AT INCREDIBLE PRICES.

PRODUCT

Window solutions with many firsts. Seamlessly welded joints, highest-performance glazing, and unmatched structural strength.

MANUFACTURING

The first and only global manufacturer offering end-to-end solutions, making profiles, glass, and windows all in one place.

INDIA'S FIRST LARGE-SCALE FULLY-INTEGRATED WINDOW MANUFACTURING PLANT

From extrusion to window manufacturing under one roof.

Precision-Engineered Tools delivering ultra-modern profile designs

Asia's pioneering machine for achieving the highest levels of automation and precision manufacturing.

Advanced Extruders provide stunning surface quality and dimensional precision.

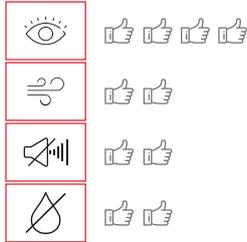

Patented first-ever seamless welding technology fuses the profiles with unique zipping method for unmatched strength and pristine appearance.

FIND THE WINDOW THAT IS RIGHT FOR YOU

SLIDING WINDOWS

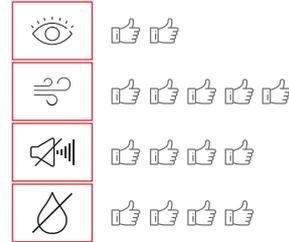

- Two-way gliding shutters in one frame.
- Space-efficient and suitable for rooms, kitchen and balconies.
